

SMART ORGANICS LIMITED

Healthy Wealthy Life

Company Overview

Smart Organics Limited is a Kenyan agribusiness company established in 2019 and registered as a private limited company. The company focuses on promoting sustainable agriculture by supporting farmers with certified seedlings, organic manure, agronomy services, and contract coffee farming partnerships.

Mission

To provide farmers with high-quality organic agricultural inputs, certified seedlings, and agronomic support that promote sustainable farming, improved productivity, and environmental conservation.

Vision

To become the most trusted agricultural partner in East Africa, empowering farmers through sustainable agriculture and profitable farming systems.

Core Services

Service	Description
Coffee Seedlings	Supply of certified coffee seedlings with high survival rates.
Organic Manure	Smart Organic Manure that improves soil fertility and crop productivity.
Agronomy Support	Field visits, training programs, and technical support for farmers.
Contract Coffee Farming	Partnership with farmers providing inputs, agronomy support, and market linkage.
